

Dear Editor,

I am pleased to submit my research manuscript entitled "A solution to Haagerup's problem and positive Hahn-Banach separation theorems in operator algebras" for publication in your journal "Journal of Functional Analysis". This manuscript includes a proof of a long-standing open problem posed by Uffe Haagerup, which has remained unsolved for 50 years. I believe that the result presented in this manuscript aligns with the scope of your journal and will be of great interest of its diverse readership. Thank you for your consideration. I look forward to your response.

Sincerely,
Ikhan Choi
