Thank you for your informing the problem.

The address was correct, so I am also curious why the parcel has returned. I guess it is because of omission of detailed address such as specified building, or absence of the recipient due to my graduation in last year.

The address that I send you via this email is my home address where I live now. This will be more accurate.

Just to be sure, this is the address details of the school that the parcel can be received without problems.

Sincerely,
