Both are my papers.
The reason why names are different is that Mr. Park who submitted the paper about the functional inequality as a representative did not reflect my request for the correction of my name.
That paper(of functional inequality) was published as a high school research program led by professor, and I could not get enough educations for ethics related to authorship.
I am sorry for this happening.

My name is
"Ikhan Choi".
(Choi is family name)

Sincerly,
Ikhan Choi.
